

SQL INDUSTRIAL PRACTICAL TASK

Banking Account Management - DDL + DML + DQL

60 Small Practical Tasks - Basic to Industry Level

Student Name : Neha Mondal.

Mobile Number : 8001316777

Batch : 7.00pm **Date :** 12-09-26

-----database and table creation-----

```
-- create database banking_db;
-- use banking_db;
-- create table accounts (account_id INT PRIMARY KEY ,account_number varchar(20),customer_name
varchar(100),account_type varchar(30),branch varchar(50),city varchar(50), balance decimal
(12,2),credit_score int,status varchar(20),open_date date);
-- select*from accounts;
-- show tables;
```

-----insert operation-----

```
-- insert into accounts values (1001, 'ACC10001', 'Aarav Sharma', 'Savings', 'FC Road', 'Pune', 85000,
780, 'Active', '2025-01-15'),
--                               (1002, 'ACC10002', 'Priya Patil', 'Current', 'Andheri', 'Mumbai', 145000,
810, 'Active', '2024-11-20'),
--                               (1003, 'ACC10003', 'Rohan Joshi', 'Savings', 'Baner', 'Pune', 42000, 735,
'Active', '2026-02-10'),
--                               (1004, 'ACC10004', 'Sneha Kulkarni', 'Salary', 'Nashik Road', 'Nashik',
67000, 760, 'Active', '2025-08-05'),
--                               (1005, 'ACC10005', 'Vikram Deshmukh', 'Savings', 'Camp', 'Pune',
18500, 690, 'Dormant', '2023-06-18'),
--                               (1006, 'ACC10006', 'Neha More', 'Current', 'Thane', 'Mumbai', 225000,
825, 'Active', '2024-03-1');
```

-----DQL or select queries-----

```
-- select*from accounts;
-- select customer_name, account_number from accounts;
-- select customer_name, account_type, balance,status from accounts;
-- select customer_name from accounts where account_type='savings';
-- select customer_name from accounts where city='pune';
-- select*from accounts where balance>50000;
-- select*from accounts where balance<=50000;
-- select*from accounts where balance between 50000 and 200000;
-- select*from accounts where credit_score>=750;
-- select*from accounts where status='active';
-- select*from accounts where status in('dormant', 'closed');
-- select*from accounts where city='pune' and status='active';
-- select*from accounts where city='mumbai' or city='nashik';
-- select*from accounts where account_type='savings' or account_type='salary';
-- select*from accounts where balance not between 25000 and 100000;
```

```
-- select*from accounts where customer_name like 'A%';
-- select*from accounts where customer_name like '%a';
-- select*from accounts;
-- select*from accounts where branch like '%road%';
-- select*from accounts order by balance desc limit 3;
-- select*from accounts limit 5;
-- select*from accounts limit 3,3;
-- select*from accounts where account_type='savings' and city='pune' and balance>50000;
```

```
-- -----ddl/select queries-----
```

```
-- select*from accounts where city in('pune','mumbai','nashik') and credit_score>=750;
-- select*from accounts where balance>100000 and credit_score>=800;
-- select*from accounts where balance between 50000 and 150000 or credit_score>800;
-- select*from accounts where status='active' and account_type !='current';
-- select*from accounts where customer_name like '%ar%';
```

```
-- -----update operation-----
```

```
-- update accounts set balance=95000 where customer_name='Aarav sharma' and balance=85000;
-- update accounts set status='active' where customer_name = 'vikram deshमुख';
-- update accounts set credit_score=755 where customer_name = 'rohan joshi';
-- update accounts set branch='college road' where customer_name = 'sneha kulkarni';
-- update accounts set account_type='premium current' where customer_name = 'priya patil';
-- update accounts set balance = balance + 25000 where account_id=1006;
-- update accounts set balance = balance + 5000 where account_type='savings';
-- update accounts set city = 'Pune City' where city = 'Pune'
-- update accounts set credit_score = credit_score + 10 where status = 'Active' and credit_score < 750;
-- update accounts set status = 'Dormant' where balance < 20000;
```

```
-- -----delete operation-----
```

```
-- delete from accounts where account_id=1005;
-- delete from accounts where account_number='ACC10004';
-- delete from accounts where status='closed';
-- delete from accounts where balance<10000 or credit_score<600;
-- delete from accounts where city='pune' and status='dormant';
```

```
-- -----alter table /ddl -----
```

```
-- alter table accounts add email varchar(100);
-- alter table accounts add mobile varchar(15);
-- alter table accounts modify branch varchar(100);
-- alter table accounts rename column customer_name to name;
-- alter table accounts drop column mobile;
```

```
-- -----table level ddl -----
```

```
-- alter table accounts add account_category varchar(30);
```

```
-- update accounts set account_category ='premium' where account_id=1002;  
-- select*from accounts;  
-- update accounts set account_category ='regular' where account_id=1003;  
-- rename table accounts to bank_accounts;  
  
-- describe bank_accounts;  
-- truncate table bank_accounts;  
-- drop table bank_accounts;  
-- show tables;
```
